

Deep Underground Military Bases are being cleared by Earth Alliance

Gene Decode, Michael Salla

Deep Underground Military Bases are being cleared by Earth Alliance-decode
<https://rumble.com/v6j1k8m>

Gene Decode discusses the pioneering work of William Milton Cooper, former U.S. Naval Intelligence briefing officer, in revealing the extent to which a secret government has been set up and operates out of DUMBs located throughout the U.S. and worldwide. Decode reveals the extent to which human trafficking occurs either for Satanists who require living subjects for sacrificial rituals in DUMBs or for genetic experiments conducted by extraterrestrials as part of secret agreements.

Decode also discusses how Draco Reptilians use battles with human supersoldiers as a rite of passage for their young warriors as depicted in the Predator movies. He next discusses ancient technologies found underneath Ukraine, which are a factor in NATO's proxy war against Russia. Significantly, he added that such ancient technologies included a functional space ark.

Gene Decode became interested in Deep Underground Military Bases (DUMBs) in the 1990s while completing his service in the U.S. Navy as a senior NCO with 20+ years of experience. He investigated claims by whistleblowers such as Phil Schneider and established a network of contacts in the intelligence community, covert operations, and U.S. Special Forces. He learned of the locations and activities of DUMBs throughout the world, which he claims currently numbers as many as 500 in the U.S. and 5000 worldwide.

DR SALLA: Gene Decode worked for more than 20 years in the U.S. Navy on five classes of submarines. Four of them were nuclear and he has been accumulating a lot of data concerning Deep Underground Military Bases. What's happening in them today is written some deep dive papers and we are going to look at one of those more recent deep dive papers and we are then going to be looking at some of the more recent topical events concerning Deep Underground Military Bases.

ANNOUNCER: You're listening to ExoPolitics Today with Dr. Michael

Salla. Your source for the uncensored truth regarding the human extraterrestrial, global and political agenda. Click the like button and subscribe to this channel. And now here is Dr. Michael Salla.

DR SALLA: Welcome back Gene to Exopolitics Today.

GENE: Thank you Dr. Salah. It's an honor to be back. Thank you for re-inviting me back to your platform.

DR SALLA: It's great to have you back Gene, people really appreciate your kind of detail, the nuanced knowledge of Navy operations and what's happening in Deep Underground Military Bases. So I wanted to go over something, an incident that you mentioned to me last time and we didn't get a chance to discuss it on air. And that is that as an adolescent, you went missing for three days and you were taken by the Guardian Alliance for protection. So you want to tell us about that?

GENE: Yes, of course. So this occurred about this time of year when I was in seventh grade and by that time I had been downhill skiing. It was before they had snowboarding and all that stuff. But I started skiing just after I started walking around two years old somewhere in there. And by the time you're in seventh grade, I believe you're 12. So 10 years I was pretty advanced by that time. There were no slopes in the ski area that I couldn't ski quite well. And so I skied alone. My parents were both ski patrol. So I skied all by myself. And because of how I liked to ski some really advanced slopes, my other sibling didn't care for that, preferred something more languishing or easy. So I was always skiing by myself.

And so in doing that, in those days you go to the ski lift, you either had a Puma with a collar, like a pole platter you sit on, or you had the chair lift. And the chair lift, they had a double chair lift and a triple chair lift that the ski area was at. So as a single, you would get in the singles line and they would pair you up with other people. So I was in the double chair lift and I got paired up with a lady, a young girl about my age and quite attractive. And I was interested, I was at that age of where you're coming to know yourself as a young man and I was very interested and I was hoping to have a girlfriend.

So we talked all the way up. She seemed very congenitally and nice, but could only ski the really, really almost flat slopes. So I said I skied a couple runs with her and tried to help her get better. Of course that

takes years in skiing. I said, so it was towards the end of the day anyway, I said, so I'm going to take a couple advanced runs. Is there a way I could meet you again? And she said, yes, with a Christian group. And if you give me your address, don't you come up with your family? And I said, yes, always this area, I'd like to go to other areas. This group you go with, they go to other areas and she goes, all of them. Yes.

And she's all very close to each other. So I said, great. So how does this work? And she said, just be out in front of your house, with your skis and poles and all your gear and boots and all that stuff at 4am and the van will show up and pick you up. So that would be Saturday, the following Saturday. So I was ready. I got to bed very early on Friday, very looking forward to get a good night's sleep to be able to talk to her and bright up to the ski area and back down to a ski area. I don't normally get to go to. She told me which one was one for that week. I would like that area. So I was looking forward to that and seeing her again.

And I went to bed Friday at about probably eight o'clock at night, because I have to get up at 4am or to be on the lawn at 4am. I have to get up at three. So I figured seven hours sleep off. I should be good. Get up and get ready to get dressed, all that stuff in your ski clothes with your long underwear and all that stuff. And you know, if you use stretch pants back in those days, it was strapped under your feet. So it was quite a deal getting dressed. So I went to bed and the next thing I knew is at that time, I had a friend's older sister who would drive us to school to the school we went to because they had stopped busing services.

And my friend was in my room telling me to get up. We had to go to school and if why am I not dressed and up already like usual and out in front of the house, it's going to be late. Hurry up. So I was like, it's Monday. Yes, where you been all weekend ago, I haven't been anywhere. I went to sleep yesterday Friday because yesterday was not Friday. I came into your room Saturday evening. And see if you wanted to go skiing Sunday with us.

I had a car that he worked in a garage and he had a car. He would disconnect the speedometer cable. Don't say you have the old dog that we would drive up to some ski area. So that was another

alternative I had to go into other skiers and they go, I love to go because why didn't you get me? I did. Like I said, I came down to your room. You weren't here. Only your dog. I had a big white kind of like the one you see, but white black. It's the same markings, but she was a white and black Siberian Husky.

So he said, you weren't here. So I went to school that day, came back home and then my father came home and he comes into my room. I have a bone to pick with you, which means a beating already. And I'm like, Oh, no, what now? You know, already the day didn't start great. And I'm kind of out of whack and trying to figure out what happened. He goes, why didn't you take out the garbage on Sunday night like you're supposed to for trash pickup on Monday? I go, I and he just started late into me and he goes, I came into your room Saturday to remind you Saturday evening.

And I also came into your room on Sunday and you weren't here. I'm like, yes, I didn't say anything back talk as they would call it. Well, if I wasn't here, why didn't you put out the trash? But it was like, you weren't here and you're supposed to do that, on and on.

So I had apparently not been in my room Saturday or Sunday, even though I went to bed Friday and of course Monday morning until some short time before I had to go to school. When I woke up, I did not feel like I had slept from Friday at eight o'clock in the evening until Monday morning, a five thirty or something, whatever it was when it came and got me. I'm like, so it took me years to, way after all of my near-death experience.

All of that happened that I got in contact with a being. I just said that way telepathically is kind of what you call it's more like psyching. She contacts me and she said, you were, I was asking about that because it's a mystery of my life. What happened?

She goes, we removed you. I said, why? Because I wanted to meet that girl and go ski. She goes to save your life. I said, how would that? I don't understand. And she explained to me that that priest minister, whatever he was, was trafficking those children. My parents, almost my father, my parents were divorced by that time for years. I was living with him with his new wife. And I was hardly noticed at all, that they wouldn't notice you gone from or even care. And so they could have trafficked me and he was planning on it.

He had already learned that from the girl that he was planning on trafficking me that weekend and out of it gone for good. And so they said that I needed to have things that would be coming in the future to let people know about certain things that were important they know. And that's why they took me off Earth and put me back so that when he saw I wasn't there, he just, and I had no way to contact her before cell phones or any of that stuff. So it was just a dead end for me. And so they let me know that they took me off Earth and just saved my life.

DR SALLA: Well, that's a fascinating story. So that was an intervention by this guardian group of extraterrestrials that recognized that there was this honeypot operation that the, I guess you would call it, the Deep State Church, while the child trafficking organizations that they had set you up was a honeypot operation, I guess.

GENE: Yes, so it was young boys were at that time were, I guess even now are more preferred by the upper elites. And I was very in shape while growing up, for a young man, very good shape and somebody they would be highly wanting.

DR SALLA: Well, this takes us into some of the topics that you discuss in your deep dive into the DUMBs. It's we're going to look at the more recent paper or the more recent deep dive that you did. And we're going to pick up from where you talk a lot about William Cooper, you cite his work on the origins of secret Government [*Majestic 12 and the Secret Government*](#). So you want to kind of like just introduce the audience to Bill Cooper and what was his importance in terms of revealing the secret government and he's time on the briefing team for the commander of the Pacific Fleet.

GENE: Yes, Cooper was one of the very first people I've read about of materials he has. It started with the [*Behold a Pale Horse*](#) by Milton William Cooper. By that time he had already had, I believe, one attempt to kill him by running him off a road. He later had another one and then finally they [*did kill him*](#) for revealing all of these materials, the DUMBs and alien groups and all kinds of things that he revealed. And he did quite a few books in materials on all of that. And when I first woke up, the *Federalist Conspiracy* was a videotape somebody handed me the truth which is the truth of the IRS and the Federal Reserve and then *Operation Vampire Killer 2000* and by Officer Jack McLamb the *Behold a Pale Horse* and Dr. Coleman's book [*Committee*](#)

[of 300](#) where the first things I ever went into in understanding this worldwide cabal, Deep State, satanic group of individuals that to have it outside of a library, I can't remove things from. I woke up to it and I was going into the library at downtown Honolulu, the Supreme Court Law Library, but those are the huge archives you can't hold books out of. And I looked up executive orders, for example, executive orders for FEMA to take possession of all properties. That's an executive order in the case of an emergency or to round up everybody and put them in camps. It's not worded that way, but directly that way, but it's essentially what it states.

And then now with what we see with DOGE, that's, I'm hoping, is going to go away. And so in the process of that wanting to have materials I could carry and have reference when people ask me and then additionally having the high clearance at that time, outstanding command duty officer, I had to inventory every safe for our command and I would have to go page check everything. And if I'm going to page check it, I didn't originally used to read every page. I said, well, since I got all access to all these top secret safe, I might as well, page check them. So I would take other people's duties. So I was standing duty quite often.

Actually people would love to have that do you do that so they could have more time off even though you're on shore duty and they paid me a little something along the way. And then I get a lot of information done where I could go in and read these top secret documents. And so through all of that with Cooper and of course Dr. Coleman, who I got to meet and Jordan Maxwell later also in his books.

And then my climbing skills because I was researching the DUMBs because of Cooper and I got to the corner of Kaena Point and I saw the big huge entrance with the grate over it. So then the following weekend, I climbed Kaena Point and got to the top where I talked about that story where two Marines in a grade G took me and my student off of Kaena Point said it's a top secret facility. We're not allowed to be there. And it's interesting I'm watching *Agents of Shield* right now incredibly informative, a lot of information in there. And they actually talk about Kaena Point tracking top secret tracking facility. But as a new facility, it's not new. It was there in 1990. So it is interesting it's in a lot of movies. So in all of that, my original big focus

was because Cooper focuses on it a lot of what is in the DUMBs, the negative alien groups, the technologies and all of this. So I started really, really researching that.

And when I retired, I really traveled all over the country looking for things, as I've mentioned before, and going into other materials as well like Phil Snyder.

DR SALLA: Now you want to tell us about the Bilderberg group that they actually form a secret world government that controls everything. And if we do the screen share, there's a page from your deep dive paper where you make a comment about the Bilderberg group. You say, yes, I don't know. Can you read that, Gene? Do you want to read that out?

GENE: Sure. In actuality, the creation of the Bilderbergers was exactly a creation of a Satanic Deep State so that they could use the alien technology and resulting needed DUMBs to have a base in which to rule the world in their "New World Order" in. This has been the long dream of rule of the world by the Satanists over humanity to be done for all time and to literally lock down and forever and enslave the human race into 15-minute concentration, slave labor and Adrenochrome harvesting camps. U.N. was their second attempt after the League of Nations that was stopped by the Tsar of Russia, which led to the execution of the entire lineage of the good rulers of the Russian homeland. The UN is nothing, but the skeleton structure for the one world order, otherwise known as the New World Order. And I will say, Bilderbergers, Germany is where they came from. It's a bunch of world level bankers and other Satanist creatures.

DR SALLA: Okay, so these globalists, they really do have a kind of Satanic agenda to just kind of like cut humanity off from any kind of self-rule and just make sure that humanity is kind of like concentrated in these slave labor camps and so forth. But that's their agenda, even though on the surface you have these organizations like the League of Nations, the United Nations, all sounding very positive. So yes, I guess that explains why Cooper and others were very suspicious of the United Nations.

GENE: Yes, they love to do word games. So you see U.N., United Nations, peacekeeping forces, but it also means un-peacekeeping forces. And they quite often were just like NATO. And wherever they

go, wars come up, wars result. So we see that now with USA and with the DOGE Trump, Elon are doing with that. They say USA that's actually not USAID, but the letters stand for the AID or for something else. But if you break it differently, it said you said, so they play these games like the, or they think it's the Grammy Awards, the National Academy of Theater and Cinema. I think it is. There's something for the S at the end. So if you switch the letters around, you get Satan.

So this is how they play word games and they play this on us. So they're doing controlled information release because in their way of understanding, they have to tell you what they're going to do. And if you disregard it, even if they tell you backwards, they still believe they told you that they have to show you upfront. And if you don't do anything or say anything against it, that's tacit consent.

DR SALLA: Yes, it's very diabolical how they do that. You also talk about President Eisenhower and his biggest mistake being to give the Rockefellers control of the alien issue. So I guess Eisenhower was someone that wanted to delegate and he delegated to the wrong people and they just kind of ran with the alien issue. You want to talk about that?

GENE: Yes, so he actually was a president that met with a group. Unfortunately, he signed with a wrong group at Holloman Air Force Base and the good group wanted the world to disarm nuclear and he didn't trust that and then all the heads of all the governments of the world at that time that were nuclear, which was only the U.S. and USSR, I believe at that time, would not go there.

So he signed with the other group, which is the negative alien agenda group, and then they started an agreement to have these deep underground bases. They would help us build them and they would get certain ones and certain levels of certain ones like Dulce, they would have the lower levels. And that's the story of Phil Snyder talks about how he got burned in a fire, showed scars on his chest in his shoulder and lost two fingers on one hand because of that fire where they stumbled on a lower level, I believe is what happened or a section where it was for the Grays. And so he wound up getting pulled out of there, the guy saved his life, but quite several people died in that fire.

Eisenhower became aware of the rise of the military industrial complex and that this agreement was not being upheld. They were going to be able to abduct and return certain people after the memory wiped them and they were supposed to let the government of the United States know what people and they had a number of exact certain ones. If you do towel mutilations, but not like people and do experiments on people and those kinds of things and they found, Eisenhower found out all of that was happening. They broke the treaty in every possible way. So he was threatened to send the U.S. Army to Dulce and also to another base and Deep Underground facility near Yucca Mountain in Arizona to deal with the group that had broken this and the course of military industrial complex to find out what's really going on in those DUMBs.

DR SALLA: For the Trilateral Commission and in your deep dive paper, you discuss the symbol and here it is on the screen share, this kind of symbol. You want to tell us exactly how is that insignia for the Trilateral Commission related to Gray aliens that the Eisenhower administration had made a deal with?

GENE: Yes, so their craft, bear the symbol. It's not just the Trilateral Commission. It's also a symbolic rendition of 666, which of course is a number that they favor quite heavily because of its good significance. And then now technological significance as well, but it's on their ships and what it symbolizes for them are the three main groups that most people now know of the Orion Syndicate, the Grays and the Mantis, I believe it is, are the three main upper groups now, the third group goes in and out of it. So this is a symbol of the three groups of the

Orion Syndicate that are the ones that Eisenhower signed with.

DR SALLA: Right, so now there was an agreement with the Gray Aliens to build underground bases, the joint bases for technology exchange and you do kind of discuss that. Yes, I got a part of it, highlight. Do you want to read that highlight apart?

GENE: Absolutely, and this is what I was mentioning previously. It was also agreed that bases would be constructed underground for the use of the alien nation and that two bases would be constructed for the joint use of the alien nation and the United States government. Exchange of technology would take place in the jointly occupied bases. These alien bases would be constructed under Indian reservations in the four corners area of Utah, New Mexico, Arizona and Colorado. And one would be constructed in Nevada in the area known as S4 located approximately seven miles south of the Western border of Area 51.

DR SALLA: Right, so now we know that agreements would reach with aliens, Grays and underground bases were built where the Grays would conduct some of their experiments. So this takes me to some of Cooper's comments concerning batch consignments of human slaves. But unfortunately at this point, because we are getting into kind of censorship waters with YouTube, we'll have to kind of say goodbye to the YouTube audience and they can go to Patreon or Rumble to watch the rest of this interview. So let's have a look at what Bill Cooper had to say about batch consignments of human slaves. I mean, you discussed that in your paper. I'm just scrolling forward to it. It's getting there very soon, page 73, let's see. William Cooper discusses these batch consignments. So you want to talk about the batch consignments of human slaves that were taken to the bases?

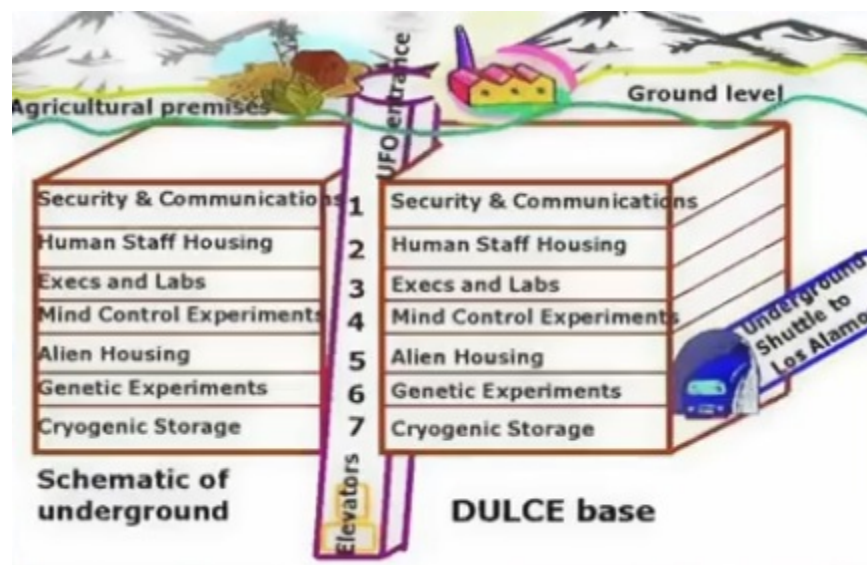

GENE: Yes, so this taking of groups of human beings in other various, what they would turn biologicals or experimentation batch consignments for the negative alien groups is for slave labor, genetic engineering, like in Dulce, where they have hybrids of grays and humans. And now we see whistleblowers coming out about craft that they came upon, I believe, in South America. And they were let to know that the big huge containers had people in them. So that's with a craft that was anti-gravitational. So hovering in other words, and these are part of the ongoing batch consignments and the group of the

government actually broke away as a, I guess you would say another civilization where they, you've got several secret space programs, the Nazi plus the Deep State of the fourth and fifth Reich and other groups that have their own secret space programs that do these batch consignment, human slave sex trafficking and genetic experimentation in their underground bases.

DR SALLA: And this was all part of the alternative one, two and three program that the elites had come up with in the event of some kind of catastrophic series of events and alternative three was where the batch consignments was mentioned.

GENE: Yes. And of course now the outcome of that is what they are calling alternative four Operation Moving, which they've tried several times like we heard talk of the face snatchers down in I think it was Peru and other parts of South America and it didn't work out because the Alliance is stopping much of this type of attempt at creating a New World Order.

DR SALLA: Yes, the Pelocatus from the Peruvian Amazon, lots of stories about their behavior down there and of course snatching human children. So I wanted to ask you, Gene, about the Deep State using human children as slaves and abusing them in nefarious ways. These DUMBs such as a Dulce, if we put image three. So yes, Gene, do you want to kind of talk about the Dulce base and yes, children being used there for various nefarious agendas by the Satanist running that base?

GENE: Yes, so a big part of Dulce just looks like power generation on the surface and other materials, I have pictures of it. Well, just a power network in a mining area and that, no, it's not. They hide all this always that way. So Dulce has quite a few levels. When you get below, essentially, level three, it becomes quite a bit of a nightmare. So your upper level is security and communications and those types of things. And they actually, to go into the lower levels, you get completely strip naked. You have to be weighed and scanned with all kinds of devices to make sure you're not bringing anything in. And then the same thing is done when you leave, they, you put on a tunic or coverall whatever you want to call it.

And then you go into the lower levels. So these would be use first go through the execs and labs and then you go into the mind control experiments where they're doing genetic manipulation, both trying to create chimeras as well as super soldiers. And that's why they take children because the mind is still developing, the child's still developing. They use all kinds of drugs and other materials and technologies, now AI implants all of this to do what human beings can do anyway through training and various direction and all of that by people who know how to do it already.

Then you get into level five, as you can see, this is the alien housing and there are whistleblowers that have talked about how they're walking by. And they will see in this level various types of non-terrestrials walking by. So they'll telepathically communicating with them. And then you get into the nightmare stuff at level six with the genetic experimentations, the various types of chimeras and things even worse.

And then you go below that into where they got what they wanted and they take it and put it in cryogenic storage so they can use it for moving. In other words, alternative four and other things. And now it actually goes below that. And you can see there's in the middle part a, that's an elevator system. And so it goes all the way down into a, you can see on the side a shovel, but that goes to Los Alamos, which is near Santa Fe, New Mexico. But at the same time, the lower elevators go down into where nuclear submarines can dock and pull up. And these can power this entire facility by taking on shore power cables and reversing the power, as the story told about how that happened in

Hawaii with the New York City, 688 class submarines. And then additionally, they can also transport the materials without being noticed at all.

DR SALLA: So I mean, Dulce is in New Mexico. It's quite out there in terms of that four corners area. So these nuclear powered submarines, I mean, does the tunnel system extend all the way to the Pacific?

GENE: They go from the Atlantic, the Gulf and the Pacific. They interconnect and into the Great Lakes. So they can wind up going up into the Great Lakes, surfacing, or not surfacing, surfacing out of the tunnel system, but being still submerged and going out through the Great Lakes into the passageways there, out into the Atlantic Ocean. There they can connect directly into the Columbia River Basin, which has a vast river underneath it or the Mississippi also has another river system under it. All the aquifers are just vast underground rivers flowing to the sea as well.

And actually the Everglades is a river moving at about two knots, a very, very slow drift to the sea. And so underneath all of those aquifers is a huge river system, then there are connects throughout the entire continent. And they have tapped into that, developed deep underground waterways for the nuclear submarines to use. So if you look at nuclear training for the U.S. submarines, for the Nukes to Train, most of the training facilities are lakes inside the continental United States. And they have submarines in there. And you, one wonders, you get a big huge nuclear submarine and nobody noticed, and you got it there by how? A truck? I mean, that is a huge vessel. Even the training ones are very large. They say, yes, we've trucked in through pieces, assembled it there, all that. That's not really true. They brought them underneath the continent in there.

DR SALLA: So these underground river systems that extend all the way through the U.S., into the Atlantic, Pacific and the Gulf, I mean, they must be pretty big and pretty deep to be able to have nuclear power submarines kind of navigate their way through these things to different locations.

GENE: Well, they don't have to be that deep, but they don't have to be that big because with the high frequency sonars, you have sonars that operate at such a high frequency that they could read Braille.

They could read a Braille book, for example. You can see the raised dots. You could see if you have a plaque, for example, that you often see on statues and it has raised lettering and an image of the guy that's this statue above, like his face or something and telling the history of, say, Andrew Jackson or something like that. The sonar can actually with sound get a picture from that black.

So they can navigate, they can see the distance and see incredible detail and navigate underneath the ocean with these sonars quite accurately. The Russians, as you saw in the movie *Hunt for Red October* have completely learned the Atlantic passage in a deep under a bottom of the ocean trench that they would go to avoid detection and being caught in things like you saw with *Red October*, which is actually just disclosure.

That actually is the very first of the break last. And so as we go into the U.S. submarines, of course, they have the same technology because the U.S. and the Soviet Union shared out everything, including their moon bases, all of this. The Cold War, as I learned, was not real at all.

It's all set up by the bankers and the Soviet Union, when it fell, was the Russians throwing off the bankers' control and they have been out of their control for quite a while. Why they always are against the USSR, against Russia, Russia, Russia, Russia, because that country is key to the New World Order not happening.

We now see that happening where Putin is working with Trump quite closely. And so they have these same facilities as well. So for example, you can go from the boot part of the tip of Italy to CERN underneath, go underneath Europe, up through a river system that's under a regular river, up and come out, will not come out, but wind up in Lake Geneva and you pass through and stop at CERN, if you wanted to, on a submarine with this kind of technology and navigational abilities.

DR SALLA: Alex Collier in the 1990s, he said that the preferred food source for approximately 2000 alpha draconian reptilians that were hidden in these underground locations. And so when we're talking DUMBs and the alien quarters, I mean, this could be, that would be one of the places where these draconians could be hidden. According to Alex, the children are regularly sacrificed by the Deep State to the

Dracos in accordance with these ancient agreements. And the agreements dictate that the Dracos would be given a steady supply of young children that the Dracos would use as a food source. And they then would not come to the surface to harass or frighten the surface population. So yes, I mean, what do you know of that?

GENE: Yes, so David Icke interviewed Credomuto who talked about how they used to come and grab people in South Africa and that had dropped down due to these agreements by various countries that, and their elite government Deep State leadership that came to these agreements with them. So the children are used because they would give two compounds when they're terrified.

So they do hunting parties with children. And then for the young Draco warriors, they will actually hunt super soldiers. It's part of the reason they make the super soldiers a worthy adversary. So they'll be armed and they go out hunting expeditions and it trains the young Dracos on how to hunt and it's part of the passage into adulthood for a young Draco to be able to have a worthy adversary something like what you see with the movie with, I believe it was Arnold Schwarzenegger where he hit a nonterrestrial that was doing the same thing to his special forces team.

He was out hunting them and had all this technology and things that he was learning how to use going through the rights of passage so to speak. So they don't just get the children. The children are used because of course they physically eat them plus they harvest the adrenochrome and even more importantly the chromochrome which is from the pituitary gland.

The growth hormone when it's oxidized becomes a very powerful substance that the Draco need to be on Earth. And then because the frequencies of Earth are going into a change which is very detrimental to them in the way they vibrate.

So the warriors, the super soldiers and these are sacrificed and the top soldiers and elites in any contract, the Nazis learned this in World War II. They made a contract to get a base on the moon and they thought that it was an honor when they got this base built. They had I believe it was 90 of their top SS elite soldiers were in a circle in this facility on the moon and I guess that actually the mustache man was there, you know who I mean, the number eight eight is the letter

representation of that in Jamatra. So they had them all in this kind of amphitheater on a kind of like in an arena and this doors open and the Draco warriors came out and tore them apart.

It's just signed in an agreement you have to sacrifice the best of your best or in combat that you're a worthy person to be having a contract with. That's how the Draco look at it. So they ripped 90 of them apart. The Nazi Third Reich at the time were quite horrified, but now have adapted to the point of that being part of their own ritual.

DR SALLA: Now there was a book written about one of these super soldiers, a Singaporean super soldier, Stephen Chua and this is something that Elena Danaan wrote a book about him. She interviewed him just before he died and put out his story, but he describes one incident where he and some special forces that they were part of a kind of Earth elite even though he was associated with the Singapore government and military. He collaborated with others to go to places where you had these reptilians harassing villages, abducting children and so forth.

So I guess you already talked about super soldiers and the reptilians kind of like fighting them, but I guess in this case, Stephen Chua, he described holding his own against these three Draco reptilians that he's kind of a small squad intercepted.

GENE: Their rite of passage is to see if in these situations, they actually cause these to happen on purpose so that they can the young warriors can be trained. So whatever he was up against obviously was in a Draco if you don't survive the rite of passage then you go through the same game with the adults and they just tear you apart because you are not a warrior. They are a species that are very conquest oriented and if you can't survive it, you don't deserve to survive it in their point of view, so you're just a training tool then.

It must always be remembered though, that George Bush began the sale of drugs to our children. The CIA now controls all the world's illegal drug markets.

DR SALLA: This takes us now to a lot of people talking about U.S. or Earth Special Forces or the Earth Alliance being used to clear out these Deep State controlled DUMBs in the new Trump administration. So do you want to talk about how that is proceeding given the balance of forces that are involved?

GENE: Yes, so currently what is people can see the comms, but they're not grasping it with Trump saying about Greenland, Canada, Mount McKinley and LA, what happened to them in LA.

And so this is all tied together and the Panama Canal. So this is all part of a network that goes from a facility that's under the ice and the ground in Greenland that requires for genetic keys to get into that then is connected underneath the oceans and the land into Northwest Territories in Canada. Then it goes to Mount McKinley which has a black pyramid inside it with high-end technology. Then it goes down to Mount Hanes in Alaska. Then it goes down to LA. It goes over to the finger lakes and up into the upper parts underneath the pipelines for Canada that sends its oil to the U.S. there.

It goes up under those pipelines up into Canada underneath the Great Lakes which is a massive DUMB facility there. It also from LA goes down through the Gulf of California. You can see what I call the coat hanger base. I've shown pictures on DUMB because of that. It's in the Gulf of California on the bottom of the ocean from there goes to Panama. This is an interconnected high-end technology and it's part of the Draco system originally.

The Alliance is pretty much for the most part used the opportunities like with LA. They cleared out some of the tunnels and revealed caverns and caves when the burnout happened. So the Alliance said, okay, you're going to do this. We'll use this to our advantage. So they went in and got into the cave systems and the tunnel systems and they rescued children.

Of course because of the Draco we spoke about what they need the children for. They rescued children and of course it's connected to the Playboy Mansion and P. Diddy's mansion and all that. The tunnel systems have been shown for P. Diddy's and all these elite and Mel Gibson is going into this now as well.

It will come out sooner or later I'm sure about this huge network of underground systems. Then from Panama it goes out to Haiti. Just follow the comms carefully and understand what you're seeing including two recent plane or helicopter plane or two missile strike comms. That's all comms.

It's all a war between the Deep State for these facilities and technologies with the Alliance which Trump at the helm along with

Elon Musk 2.0 and other individuals Putin and all this. They're cleaning it out and you see the tariffs and all of this to get us back into where we originally came from. Constitutionally a constitutional republic before 1871 without income taxes and all these taxes. Exise tax income tax land property tax that's probably all going to go away and the government had a surplus that was handed from McKinley again by McKinley to Eisenhower which Teddy Roosevelt which the surplus was so vast he created the national park system and then later the elite got ahold of that and put DUMBs under the national parks for the Chamaros there too.

Everything is interconnected and both sides use everything. When we see these events happening what you're seeing as comms and events in a war that has finally started to culminate into where the Alliance that is helping Earth and the negative group that is helping the negative side of the crypto-terrestrials like the Homo Carpensis and these other groups for us to become free the human species.

DR SALLA: Bill Cooper he described the Cold War conflict between the Soviet Union and the U.S. as a charade and if we just bring up the screen share again there's a highlighted area that describes that maybe you want to read that out Gene and then I want you to comment on whether that even applies today to the current Ukraine-Russia conflict.

GENE: Yes you want me to start it *Today* or *A public*?

DR SALLA: Today.

GENE: Okay "Today cities exist on Mars populated by specifically selected people from different cultures and occupations taken from all over the Earth.

A public charade of antagonism between the Soviet Union and the United States has been maintained over all these years in order to fund projects in the name of national defense when, in fact, we are the closest allies."

And so this is what I became aware of like I have stated before on my third submarine it was a farce. I'm plotting the submarines for the Soviet Union all over the world. We know where they are and they obviously know. I knew the technology was going back and forth because if you look at the 688 class and then what the Soviets came out with their submarine very shortly after the 688 class came out,

their submarines looked like a copy of it and vice versa.

We keep copying each other back and forth and back and forth so you look at a Charlie class submarine, wow that looks familiar. It all doesn't look like a Soviet submarine, it looks like ours and, but we have things that later came back and forth and back and forth so it's been, now that the Alliance is in charge of Russia, the big guys.

Yes and I was saying this six years ago, in China too with Xi, but he has to walk a finder line because of that what is called the Black Hand which is commonly known as the CPC. We know it as the Chinese Communist Party CCP, but that is actually a Deep State way of saying it. They call it the Communist Party of China CPC is the correct truth so that is run by the Black Hand which is the Lee family of the lower 13 families of the cabal that being the Rockefellers, Rothschilds, Carnegies, Mellons, Kennedys etc.

DR SALLA: Okay so then we can assume that even though on the surface you have this Ukraine Russia conflict and NATO is using Ukraine as a proxy that behind that you have this level of cooperation that you just you just described and I think that's very important especially when it comes to you know the claims that there are armies of clones that have been manufactured by the Deep State that have been used in the Ukraine war.

So if I put up image number seven. So is this another example of wars being used to generate to test a new generation weapons such as these cloned super soldiers and the Russians are fighting against these kind of clones in the Ukraine war. Is that what's going on?

GENE: In Ukraine if you people will think back to Vietnam, Korea, World War II we saw footage all the time of what was going on in the war, gruesome, incredible footage, reporters on the ground.

Do we see hardly anything like that from cities which are about to be completely be taken over? Why does it take so long? Why does it all look like very conventional weapons when we know what the cabal has with paradise, with lahina?

Why aren't we seeing all this? And then we have the general that took over the facility at Chernobyl who said he's not leaving until all the children are rescued.. Then we have Trump with Chy'na and all those facilities for gain of function that were all over Ukraine. So the Alliance is working with Russia with the U.S. White Hats and allowing the Black

Hats, of course, to have their agenda. There again it's like LA where they have their agenda and they're laundering us with Zelenski saying 200 billion. I never saw anything, but 74 like all your millionaires and all this stuff that at the same time what we're seeing is a clearing out of the ground base of this group when they first came to Earth.

So the group that originally came to enslave this Earth from the star system known as Scion, they used to hide it for a very long time as Zion or the protocols of the wise men of Zion the true name of Scion from two planets, their home planets that they blew up trying to use technology that locks up on our Merkaba field.

So they learned how to use it later and so that's their whole first starting place is in that caucous mountain region that runs down through Ukraine and so it's their home base. It's where they first landed it's where they built their underground facilities. The number of tunnel systems under Ukraine is I've shown map of it before and it is beyond comprehension how many DUMBs there are in there. That's why the mustache man, the Nazis, the Third Reich were so interested in that area and had their wolf bases and all this stuff which are underground facilities as well as on surface and all of these non-terrestrial chimera hybrid beings and clones and all this technology they're using just tested out in Ukraine. That's why it's grinding on and grinding on and grinding on and Trump thought he could end it in a day and we don't see it ending in a day.

Yet we see the Middle East conflict at a standstill now because it's very very complicated what's going on. You got White Hats, you got Black Hats, you got negative groups, non-terrestrials, you got positive groups, you got chimeras, you got all clones.

You got everything in there. That place is the home of the nest of the worst of the worst. When they first came to this planet eons ago and so that is the battle for essentially their homeland and it is incredibly rich in technology alone the rare Earth cities talking constantly talking about plus the black Earth that it grows they can say you stick a tire on the ground or a boot little grow something and he was shipping that back to Germany.

Also they had the what they believe the Third Reich upper group believed that that was of course because that's where they landed the home of the Aryan and civilization so they took women during World

War II for a genetic enhancement project and had them forced to bear children by top SS officers.

That's why in Canada you saw this guy get a standing ovation and three times actually and that's symbolic your that's comms and he was part of this and those children of this genetic enhancement project or who we now see leading the WEF and the EU all of these various female leaders and male leaders that seem to be have very little understanding politically, economically of anything at all.

Several other leaders have called them useless idiots in Russia, for example, I think made you have called them that and that's pretty much what they are. They're the offspring of that genetic enhancement project and so that was their design originally was to rule the world from Ukraine and they had built that up when they first came down in that part of the caucous mountains that goes all the way down from the Baltics down through in the Pontic steps and down to the Black Sea as well as to the Carpathians in that area.

DR SALLA: Information that you just cited there about Ukraine being this ancient repository for advanced technologies dating back to when ET groups kind of like established a foothold there started seeding a kind of a new species of human there or conducted a genetic experiment involving hominids there.

That would support this idea this information that there's a space ark in Ukraine especially in the Qasan region and I think we've talked about this in the past, but maybe you can elaborate on the connection between if your information is also found that there was a space ark there.

GENE: Yes and those were brought in case the Black Hats obliterated the planet they could reseed it with life that would be supportive of human beings again and to save enough humans so that they could reseed this planet and bring us back up because it has been done.

This war is not the first rendition of this war on this planet if you look at the war between Atlantis and Lemuria with the destruction of Lemuria almost complete and the near complete destruction of Atlantis and that happened twice the final time was pretty much total and it ripped the continents into where they currently sit within about 40 feet.

Then we also have civilizations that have gone by the wayside from

the Uyghur civilization that was in the Gobi desert that was vast and very spiritually advanced and we're mostly working with sentient plants. That's what the Voynich manuscript is talking about I believe. Then you go into hyperborea which is another one of these civilizations wiped out and I believe that was the beginning of the pyramid wars I called it the electric wars at that time. That's what's in Crimea.

There's a whole massive amount of pyramids in Crimea that are activating that space ark that's in the Person region and going down into a kind of a national forest area just above Crimea there's a smaller one there as well. And then also again and it's not just a coincidence as a coincidence there's one in a certain area in Greenland in northwest territories in Alaska so in underneath LA surprise, surprise.

There are no just happened to be that with this gold sightings and so we're seeing all of this now coming out because we are in this battle and now it looks like we're not going to get wiped to where the Inner Earth have to come and reseed everything all over again, but that's the purpose the Inner Earth beings that are not subject to all this war and destruction over and over and over and over and over are galactic and they're with this group they are peaceful with this group but not the arks here.

DR SALLA: Now what do you make of this attempt by the Trump administration the DOGE that Elon Musk is heading to cut off or at least put the U.S. agency for International Development under the state department because the funding that that was generating was being siphoned off into all of these covert projects and so and we've been talking about Deep Underground Military Bases and the various things that are going on. Is that where part of the money was being siphoned off to and is this part of what the Trump and Musk are doing to kind of like take on, dismantle, the Deep State?

*1.05m

GENE: Absolutely, so you said the USAID was funneling money to the wef and of course the NAD, National Endowment for Democracy or both hand in hand part of this and various other NGOs for the color revolutions all over the world that the CIA had trouble previous to these organizations being created funding so they funded these. The

CIA of course is an outgrowth of the OSS through [Project Paperclip](#) became what we known as Clowns in America or Central Intelligence Agency.

So in all of this that it is finally the dismantling of this worldwide cabal that's been here for thousands and thousands of years and it's finally actually working. We see his first term was to ferret out the rat ones and all the interconnections and everybody. So now a lot of the people within the government within these agencies had their security clearances removed and also have orders they cannot step on federal properties buildings can go into them etc.

That means you're under investigation and we have a reporter talking at courthouse three is being built in a very large courthouse and we're holding facilities for high level illegal immigrants, in other words that are terrorists and multiple offenders in GITMO.

Well that means somebody who's not born in the U.S. right? Was Kamala born in the U.S., could Kamala be born in Beirut? How about Biden where was he really born? So you go back through these senators and majority of senators too have changed their names and they're not born here. A lot of them are part of the end of the Aneurday Project.

So if you're talking high level repeat offenders well two terms vice president, president or president twice and you're not a born citizen that's a high level, what I just said right? So they could be sent to GITMO. people aren't catching the columns, it's really obvious to me. So it's like uh-huh I got it.

So like what happened with the aircraft explosion in the helicopter the Black Hawk, there's obviously nobody's on there and it's being steered by somebody who's Lockheed Martin developed the technology to remotely steer a Black Hawk and it's going all over the place. It's almost colliding into many things, this is going up the river because people aren't very good on it yet. It's new technology and then it crashes into that. I'm looking at the fact just like we saw with 9-1-1 that there's an aircraft allegedly that landed half an hour earlier with that exact same flight number.

If we look at the number of that tail of that plane, we see that that is a Senate resolution for evaluating the U.S. dollar compared to gold. How much it's worth in gold today. I don't know. We're just looking

towards heading into NESARA. Then you we say Russian U.S. ice skaters and then we see the Tanya Harding, Nancy Kerrigan crying jag thing being pulled back up and a very to me crocodile tear nothing worthy of Hollywood kind of example of certain things being said. Is what we're being shown what really happened or is it like what we've seen with 9-1-1 all over again?

What is an ice skater? Were are they on that plane or are we being given comms? So there's a lot of things going on. Then we see a hole that's the size of a Volkswagen beetle about in another supposed aircraft taking a nosedive and it looks to me another footage I've seen like two missiles and then we're shown a unburnt part of a plane that doesn't even have any frying to the paint or anything and yet the fire bottle when that thing hit and that's what they came up with looks like you cut that out of something tore it out of something and then shipped it there.

To me this all looks like Deep State and White Hats back and forth showing things and giving comms and doing operations to a war. We're seeing a war and we're not being told precisely what's going on. Back to you Dr. Salla.

DR SALLA: Right well in terms of this deep dive paper that you wrote, you estimated that there are roughly 500 DUMBs in the united states and 5,000 worldwide many of these were Deep State controlled by this these Satanist organizations, but, of course, the White Hats the Earth Alliance working with positive extraterrestrials have been liberating these for some time. So at this moment in time February 2025 what's the nature or what kind of percentage of these DUMBs are still under Deep State Satanist control as opposed to those that aren't liberated?

GENE: Yes the problem with giving percentages is first they're going really, really fast and had a majority of them, like we see in Ukraine, for example, it went back forth and back and forth. Russian has it. Ukraine has it. Russian has it.

This is what happens.

So as more things go back and forth and back forth then we had the Ashtar Command like the ones they had helped clear for their own purposes. And so then those had to be taken back again. So you have a war, back and forth and back and forth.

So the big ones that are very important are being held pretty solidly which is CERN. the two in the finger lakes DUMBs under the great lakes and the facility that's in Greenland northwest territories Mount Haines and Mount McKinley those are huge and very important facilities.

And then also Pine gap. So those are the main ones. Of course that are so very important that they took early on, they've had to retake, but now they're making sure to the best of their ability. In any war can you absolutely say you can't have it taken away from you again? No you can't.

That's why the Russians in Ukraine are taking a slow methodical procedure and they have essentially as far as third, fourth, fifth generation warfare goes demilitarized the U.S., the U.K. the five eyes and the EU and Ukraine. And in Ukraine they demilitarized it to the point where it doesn't matter what weapon you send there. There's no people to use it because when Zalinski said okay we're going to start doing 18 to 25.

They've already been doing them. Russians have already had whole battalions and mostly 18- to 25 -year-old surrender because they get three days training. They don't want to be up there. They were taken off the streets. So this is what we see in war. You say this is going to be, we're going to that means you've already done it.

And so this is the same thing we see here so. I know what the percentages were, but in any war you can't rest on that until you demilitarize the other side which means you've taken them out entirely. So we're heading towards that, but there's still you don't take out something that's been dug into the Earth in alternative dimensions even, for thousands and thousands of years.

DR SALLA: Yes, agreed and of course I mean we've been hearing about these DUMBs being liberated over the last few years, but now with the Trump administration being in power and the Earth Alliance having kind of like more resources and special forces to clear out the DUMBs I imagine it's going to move much more quickly now.

GENE: Yes, much more quickly so you know until they got these higher end technologies from the Alliance and other areas with the Secret Space Programs the Inner Earth peoples and all that have all joined together to do this. It will slowly implode. now we're going

quickly and I do believe now with the Inner Earth technologies the Galactics and all of this they're going to hold what they have and they're going to keep what they have and with the Trump administration in and doing what they're doing that's so obviously destroying the Deep State.

It's obvious that they're on the run and that as we say in martial arts they're *on the ropes* or in a boxing match they're on the ropes and they're going down because they're doing while swinging and they're missing their mark.

They're essentially the people they've got running things are just not very intelligent. It's like us listening to one of the Kennedy's and he was saying you know I think it was, "Biden speaks two languages English and stupid". So it's what we see.

These people that they have left the middle level management, the uppers are gone for the most part and then the upper of the upper has been gone quite a while. So it's the mop up situation, but in any mop up at the end of the war, that's when it can get the worst.

So if you look at the wars we know based on the history. we know the ways we can in World War II when the Allies were in Germany and I'm reading a book about the Russians coming into Germany at the time and how devastating and how ferociously the Germans fought for the homeland at the very end and how bloody it was and how some of the worst losses for the Allies were at that time.

In a very short period of time the fighting was the most horrific of all. So we're seeing that now like with what's happened in LA the Alliance has learned a lot, so we're not seeing massive losses that we like World War where you see thousands of civilians being murdered in vast destruction of properties and all of this that is evident, but we do have losses that people don't attribute to things because they're hidden like warp speed and what actually the combination of what that was all about is very complicated, but we're getting losses from that now too. Back to you.

DR SALLA: All right well so yes that pretty much completes my review of your paper DUMBs the underground war and in-depth introduction for a full understanding part one so is there a part two that's in the process so do you have an idea when that'll come out

GENE: Yes, I had my computer crash and I lost half of it and then

somebody found a half of the half I lost, but it's in an archive of almost 900 pages. I mean after digging rebuild it so probably mid to late March I'll have the part two redone again. I was almost done, I would have had it this coming week, but my computer had to be completely expunged and all the files had to be recovered and I couldn't recover everything.

So I am looking to and I will prioritize that for myself to try to get that done as soon as I can, but I'm looking at mid-March to late March

DR SALLA: Okay well that would be great mid-March late March we can talk about that will you be discussing crypto-terrestrials in part two a series of things as I said I've lost track of where I am so I don't know right now.

Okay all right well I want to thank you Gene for coming back and you know giving us more information about Deep Underground Military Bases and you know what the state of the game is right now with the clearing of them and the removal of the Deep State and the power. So yes thank you and why don't you kind of like tell people where they can go if they want to learn more about you if they want to do a deep dive onto your website and kind of read a lot of these articles that you've been working on for decades now

GENE: Thank you so much Dr. Salla. Yes, my website is genedecode.org and there's a free section of the surface area and then the paid areas of the deep dives and then that's seven a month or seventy seven a year and then I have a rumble realgenedecode and I'm realgenedecode on truth social and on telegram I believe and so then also all of my past old interviews were going through and editing them all for copyright to make sure we're copyright compliant and putting them up on my free website.

DR SALLA: Well thank you Gene

GENE: Thank you Dr. Salla, God bless you.
